

BREAKING NEWS
Written by Paul Wilshaw

This is a party political broadcast by the Conservative Party:

Breaking News

We are listening to the scientist and their views

Breaking News

We are grateful to the NHS

Breaking News

Going to a castle to make sure your eyes are okay so you can drive is okay

Breaking news

Britain has the highest death toll in Europe

Breaking News

We hope you can have a great summer in 6 months

Breaking News

We will be constantly reviewing the Lockdown measures

Breaking News

Breaking please just Stop

We don't need to hear all this breaking news

We need it to stop

I am sorry but I feel like I am losing the plot

I understand it's not easy

And all of this is new

But isn't this why we are reliant on you

I don't understand the graph you show on TV

Nor understand the science by Chris Whitty

I am hearing the number of people dying

And I want to cry

And I really do not understand the people who think it is a lie

I am missing my friends

And the place I call home

I know that we can still talk over the phone

But it is not the same

I want to see my friends

And give them a hug

But I am also scared of catching the coronavirus bug

I feel I am losing my identity

And what makes me be me

But the things that I am grateful for
Is that I am alive and free
I can't wait to play football
And go back to the theatre
Eat a Toby Carvery with friends
And eat fish and chips by the sea

But in the third lockdown
The worse one of this trilogy
Breaking news
No this isn't breaking
This isn't even news
Everyone in this lockdown
You are amazing
And just be you
